

## Key Features

### Battery operated

Every PHL model can be both AC and battery operated. The built-in battery slot fits 8 standard AA batteries for 8 hours of use.

### MonoBloc and Internal Adjustment

The proven high-performance MonoBloc weighing cell guarantees a long service life, while internal adjustment provides a quick, comfortable way of adjusting the balance with just one keystroke.

### Brilliant backlit display

Even under extreme lighting conditions, the numbers and symbols can be read easily and accurately on the brilliant backlit display.

### Built-in applications

Easy-to-use application programs are built-in as standard: formulation, piece counting, check weighing and statistics. Each application is supported by a visible icon on the display.
